

300wh power station in china in hungary

Overview

BUDAPEST, May 27 (Xinhua) -- Hungary on Thursday inaugurated the country's largest solar power plant, which was built by China National Machinery Import and Export Corporation (CMC) near the southwestern city of Kaposvar. In Kaposvar, a populous city in southwestern Hungary, what readily catches the attention of passersby are hundreds of thousands of solar panels covering an extensive expanse of land, creating a breathtaking "sea of blue. Its mayor said the project is not only supporting Hungary's climate goals, but also serving the interests of the local community. The plant is the largest in Central Europe. BUDAPEST, Jan. 9 (Xinhua) -- China accounted for the largest share of foreign investments in Hungary in 2024, with seven Chinese projects contributing nearly half of the year's total investment value, Hungarian Minister of Foreign Affairs and Trade Peter Szijjarto said on Thursday. South Korean and. Construction of the Kaposvar 100MW Photovoltaic (PV) Power Station, the largest of its kind in Hungary, started on June 17.
