

Castri smart pv-ess integrated cabinet high-efficiency type

Overview

69kWh modular system, expandable to larger capacities as projects grow. Flexible grid use — works seamlessly in both grid-tied and off-grid scenarios. Multi-layer fire protection with real-time smoke. 144. This document may contain forecast information, including but not limited to future finances, operations, product series, new technologies, etc. Due to practice the uncertainty in the actual results may differ from the predicted information. Connects grid and backup generators for flexible power input. Supports electric vehicle. CNTE offers a diverse range of C&I All-in-one ESS cabinet solutions, range from 109kWh to 232kWh. We partner with toptier battery cell supplier CATL, to ensure safety and efficiency. Our team will support you throughout the entire process, including pre-sales solutions, product delivery, system. Equipped with intelligent liquid cooling, they support grid-tied operation for peak shaving, demand management, and energy arbitrage. For details about the installation.
