

Cost of a integrated cabinet system for island use

Overview

The cost of kitchen island cabinets is \$150 to \$1,200 per linear foot installed, depending on the material and whether they are stock, semi-custom, or custom: Stock cabinets cost \$100 to \$400 per linear foot installed. Homeowners commonly pay a wide range for a kitchen island, with the total price driven by size, materials, and built-in features. Katie Newcomb is an interior designer and co-owner of Kith & Kin Interior Design. Get free estimates. The most budget-conscious option involves using ready-to-assemble (RTA) or prefabricated units, which offer the lowest cost structure but the least flexibility in design and size. A basic, prefabricated island can cost between \$600 and \$2,000, often arriving as a rolling cart or a simple stationary. The price range for kitchen islands is surprisingly broad, reflecting the incredible variety of options available.
