

Dili island solar system

Overview

Located in the tropics where sunlight remains relatively stable year-round, this location shows impressive solar potential with seasonal variations driven more by wet and dry periods than traditional temperature-based seasons. On the path toward climate neutrality, the UN House in Calcoli, Dili, wanted a reliable, clean, and renewable energy source. In cooperation with our local partner, GSOL technicians have installed a 300kWp on-grid solar PV system, which covers 50% of the annual electricity consumption of the UN. DT Global Asia Pacific Pty Ltd (DT Global), through the Partnership for Inclusive Prosperity Program (PROSIVU), is seeking a qualified consultancy firm to act as a Technical Advisor for the Atauro Island Solar Renewable Energy Project in Timor-Leste. This initiative is part of Timor-Leste's efforts. Dili, Timor-Leste presents excellent conditions for year-round solar energy generation, consistently delivering strong electricity output throughout all seasons. KIMURA Tetsuya, Ambassador of Japan to Timor-Leste, and Ms. 1 Consumer costs, even with government subsidy, remain high and outages are common. The centralised nature of the local electricity supply chain.

Solar PV Analysis of Dili, Timor-Leste

Located in the tropics where sunlight remains relatively stable year-round, this location shows impressive solar potential with seasonal variations driven more by wet and dry periods than ...

East Timor (Timor-Leste) Solar Project

In collaboration with the World Food Programme (WFP) and Sanimhy Energy, GSOL Energy has successfully installed and commissioned a 20 kWp solar PV system for the Digital Learning Center in ...

Expression of Interest Consultancy Services (Technical Assistant ...

DT Global Asia Pacific Pty Ltd (DT Global), through the Partnership for Inclusive Prosperity Program (PROSIVU), is seeking a qualified consultancy firm to provide Technical ...

A Case Study: Performance Comparison of Solar ...

A Case Study: Performance Comparison of Solar Power Generation between GridLAB-D and SAM in Dili Timor Leste

Technical Design and Delivery Advisor

This initiative is part of Timor-Leste's efforts to expand energy access and transition to renewable energy, with a focus on delivering solar power and battery energy storage systems to ...

Going Green

Seek expert advice on system size, equipment options and projected energy savings. Request detailed quotes, including installation costs and expected payback periods, to make an informed decision.

Timor-Leste Advances Toward Clean Energy Future with Solar Power ...

A high-level delegation led by the Ambassador of Japan, UNDP Resident Representative, and INFPM Executive Director conducted a monitoring visit to assess the installation of a hybrid solar ...

Solar-powered UN House Lights Way for Greener & More Efficient ...

With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator (RCO) has now started lighting the way with its solar-powered grid which has ...

DT Global hiring REQUEST FOR PROPOSAL

This initiative is part of Timor-Leste's efforts to expand energy access and transition to renewable energy, with a focus on delivering solar power and battery energy storage systems to Atauro...

A Case Study: Performance Comparison of Solar Power ...

This study proposes that the results of solar output power from both methods, GridLAB-D and SAM can be used to design grid-connected or stand-alone electric power projects to increase the quality of ...
