

Does the off-grid solar energy storage cabinet grid inverter have wifi

Overview

10KW Off-Grid inverter supports WIFI function, server rack battery can easily communicate with hybrid inverter, supports Bluetooth and Wi-Fi connection, you can easily use APP to monitor the working status of the system. Capable of split-phase (120V/240V) or. It greatly reduces electricity bills, and can be supplemented by energy storage on rainy days to achieve electricity freedom. AC charge current Up to 6 units in parallel for capacity extension Parallel operation to form the split phase system or three phase system Support three phase unbalanced power for the output Multi-customized modes can be applied to a variety of application scenarios. That's where a grid off inverter comes in. This smart, standalone device converts direct current (DC) from solar panels or batteries into alternating current (AC) to power your appliances—no grid needed.
