

Egypt battery energy storage project

Overview

AMEA Power has completed Egypt's first grid-scale battery energy storage system (BESS), co-located with a major 500 MW solar plant. Cairo, Egypt, June 15, 2025 – IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to. Dubai, United Arab Emirates, 15 July 2025 – AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful commissioning of Egypt's first-ever utility-scaled Battery Energy Storage System (BESS). The company plans to build projects with a total capacity of 1,500MWh. The 300 MWh battery storage facility. Egypt is taking a monumental step in its green energy transition, positioning itself as a continental leader with the development of Africa's largest solar and battery storage project. This ambitious initiative underscores a major global trend towards integrated renewable energy solutions that.
