

European Server Rack Dustproof Type

Overview

Built from rugged welded steel with a load capacity of up to 3,000 lb (1,360 kg), it provides reliable protection against dust, dirt, and moisture while offering flexible cable management and optional cooling solutions. Thanks to its IP55 rating, integrated fans and solid steel construction, this server cabinet provides maximum protection as well as ventilation, even in demanding industrial. NEMA 12 enclosures are constructed for indoor use and provide a degree of protection to internal equipment against circulating dust, falling dirt, lint, and fibers. These filtered cabinets create clean room environments for sensitive electronics including servers, switches, and IDFs. Configurable from 4 to 43 RU in 20", 25", or 30" depths. Price. EDP Distribution supplies racks for use in IT and Logistic environments. Whether you need a single rack at home or a thousand in a data center, you'll find the best that money can buy right here.
