

Georgia energy storage bidirectional power project

Overview

On May 7, 2025, Georgia Power reported that it had announced that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties. The BESS projects were authorized by the Georgia Public Service Commission (PSC) through. Georgia Power has requested certification from the Georgia Public Service Commission (PSC) for 9,900MW of new generation resources, including more than 3GW of battery storage that the utility would own. Approximately 8,000MW of the requested resources were chosen from an “all-source” request for. Georgia Power has been progressively expanding its battery energy storage portfolio as part of its Integrated Resource Plan (IRP) updates, approved by the Georgia Public Service Commission (PSC) in 2023 and 2024.

Article Content

Macon, Georgia is getting a Georgia Power battery facility | Macon ...

Georgia Power is building 765 MW of battery storage in four Georgia counties, boosting grid reliability and increasing renewable energy.

Georgia Power begins construction of newest battery storage system ...

The 200 MW system is designed to quickly dispatch stored energy over a four-hour period. BESS projects support the overall reliability and resilience of the electric system, while also ...

Georgia Power Advances Battery Storage Projects Across Georgia

The largest project, McGrau Ford Phase I and II in Cherokee County, will provide a combined 530MW. By utilizing company-owned land and Burns & McDonnell for construction, ...

Georgia Power's Battery Storage Adoption

The largest of these is Georgia Power's 65 MW Mossy Branch Energy Storage Facility in Talbot County, commissioned in November 2024, which serves as the state's first fully dispatchable grid-connected ...

Georgia Power Begins Construction on 765 MW of Battery Storage to ...

Georgia Power has commenced construction on 765 megawatts (MW) of new battery energy storage systems (BESS) across four counties in Georgia, aiming to significantly enhance grid ...

Construction now underway on 765 MW of new battery energy storage ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

Construction underway on 765 MW of new battery energy storage ...

In total, 765 megawatts (MW) worth of new BESS will be strategically located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties.

Georgia Power to Construct 765 MW of Battery Energy Storage Systems

The utility recently announced that construction is underway on 765 megawatts of new battery energy storage systems located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Georgia Power requests PSC permission to build and own 3GW of ...

Georgia Power has requested certification from the Georgia Public Service Commission (PSC) for 9,900MW of new generation resources, including more than 3GW of battery storage that ...

Construction now underway on 765 MW of New Battery Energy ...

On May 7, 2025, Georgia Power reported that it had announced that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically ...

Macon, Georgia is getting a Georgia Power battery ...

Georgia Power is building 765 MW of battery storage in four Georgia counties, boosting grid reliability and increasing renewable energy.
