

High-Temperature Type Communication Cabinet for Dutch Network Rooms

Overview

The latest generation with innovative technique and future-oriented design. The CTS temperature test cabinets stand out for their high temperature change rates, easy programming via our modern Multi Touch Panel and low noise level. ICEcube delivers industry-leading NEMA Cabinets and Racks designed to safeguard critical rack-mount equipment and batteries. With advanced environmental barrier control and durable construction, our climate-controlled cabinets provide protection against heat, dust, water, and environmental. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. The VersaEdge™ Wall-Mount Cabinet delivers a scalable, modular enclosure engineered for modern edge and data. With over 20 million enclosures deployed and more than 50 years of innovation, Charles is the communications industry's go-to source for enclosed solutions.
