A 19-inch rack battery cabinet is a standardized enclosure designed to house backup power systems in server rooms, data centers, telecom installations, and industrial environments. These cabinets are engineered to fit seamlessly into 19-inch equipment racks—ensuring efficient space utilization. Our 19" network racks securely house your active and passive network components, such as fiber optic and copper cables, splice boxes, patch panels, routers, switches, servers and accessories. Bud provides a variety of 19 inch rack cabinet products for data centers and for any situation requiring mounting and enclosing 19-inch rack equipment. The line includes our popular 42u rack. Pylontech 19-inch battery storage cabinet: a device of choice for storing your batteries. This rack has a tempered glass door that allows you to keep an eye on the batteries without having to open and close the door every time you check. EDP Distribution provides a variety of 19" cabinets. What is a Server Rack?

Manufacturers create a server rack as a standard frame or enclosure. Doors and side panels are all lockable and removable thus providing all round access to the entire rack. The mounting profiles are numbered with the "U" size and are fully adjustable.
