

London energy storage industrial project

Overview

Led by Leo Bedford, ep Pixii will deliver integrated systems that combine battery storage, solar generation, electric vehicle charging, and other on-site energy technologies. The company also plans to support clients in reducing costs and generating revenue through participation. The Department of Business, Energy and Industrial Strategy (BEIS) in the UK has given the green light to the country's biggest ever battery storage project. InterGen has gained planning permission for a 320MW / 640MWh lithium-ion battery site at DP World London Gateway, a new port and logistics. The landmark project, which secured the first long-term tolling agreement for a single battery energy storage system (BESS) asset in Great Britain last year, has now set a record for speedy commissioning. This landmark project, the largest of its kind to enter operation in the UK, marks a significant step forward for the UK's transition to. The UK's battery storage sector is charging ahead at an incredible pace. Since 2020, operational capacity has increased by 509%, climbing from 1,128 MW to 6,872 MW in 2025. So far this year, more than 1,405 MW of new capacity has been commissioned, already beating the total for 2024 and putting the. London, UK - July 28, 2025 - Jinko ESS, global leading energy storage company and subsidiary of Jinko Solar Co. The project will feature 28 units of Jinko ESS's.
