

Market Price of Lightning-Proof Industrial Cabinets for Edge Computing

Overview

According to our latest research, the global Edge Colocation Cabinets market size reached USD 2.14 billion in 2024, driven by the surging demand for low-latency computing and distributed IT infrastructure. Segments - by Product Type (Wall-Mount Cabinets, Floor-Standing Cabinets, Outdoor Cabinets, Others), by Application (Telecommunications, Data Centers, Enterprises, Cloud Service Providers, Others), by Rack Size (Below 20U, 20U-40U, Above 40U), by Cooling System (Active Cooling, Passive Cooling). The Industrial Edge Computing Market Report is Segmented by Component (Hardware, Software and Platform, and Services), End-User Industry (Manufacturing, Oil and Gas, and More), Application (Predictive Maintenance, Quality Inspection and Machine Vision, and More), Deployment Model (On-Premises Edge). The market growth is primarily driven by the increasing demand for real-time data processing and low-latency decision-making in industrial environments. The North America industrial edge market accounted for the largest share of over 38% in 2024. 74 million in 2026 to USD 11704.

Edge Computing Market Size, Share, Industry Analysis

The global edge computing market size was estimated at USD 168.40 billion in 2025 and is projected to reach USD 249.06 billion by 2030, growing at a CAGR of 8.1% from 2025 to 2030.

Industrial Edge Market Size & Share | Industry Report, 2030

By component, the hardware segment dominated the market with a share of over 58% in 2024. By organization size, the large enterprises segment accounted for the largest market share in 2024. By ...

Edge Computing Market Size & Share, Growth Trends 2026-2035

The global edge computing market size was estimated at USD 21.4 billion in 2025. The market is expected to grow from USD 28.5 billion in 2026 to USD 263.8 billion in 2035, at a CAGR of 28% ...

Edge Colocation Cabinets Market Research Report 2033

As per our comprehensive analysis, the market is witnessing a paradigm shift towards distributed IT infrastructure, with edge colocation cabinets playing a pivotal role in enabling efficient, secure, and ...

Industrial Edge Computing Market Size & Growth to 2031

Compare market size and growth of Industrial Edge Computing Market with other markets in Technology, Media and Telecom Industry

Industrial Edge Computing Market

According to the Industrial Edge Computing Market forecast, the Asset Tracking held the largest market share of 25.2% in 2023 owing to its wide-ranging applications and benefits.

USA Industrial Edge Computing Market Outlook to 2030

In 2024, federal investments in these projects are projected to reach \$1.2 billion (about \$4 per person in the US), supporting the development and deployment of advanced edge computing solutions in ...

Server Cabinets Market Size, Share & Report

The rise of edge computing, which involves processing data closer to the source, presents new opportunities for the server cabinets market. The need for compact, efficient, and ...

Edge Computing Market Size, Trends, Forecast Report | Industry 2031

The Edge Computing Market worth USD 257.76 billion in 2026 is growing at a CAGR of 13.24% to reach USD 479.97 billion by 2031. Amazon Web Services, Inc., Microsoft Corporation, ...

Edge Colocation Cabinets Market Research Report 2033

According to our latest research, the global Edge Colocation Cabinets market size reached USD 2.14 billion in 2024, driven by the surging demand for low-latency computing and distributed IT infrastructure.
