

Modular Battery Cabinet with Constant Temperature and Humidity ODM

Overview

The battery cabinet adopts a modular design and can be flexibly expanded; it is compatible with 320Ah large battery cell design and has higher energy density, and a single cabinet can be expanded to 393kWh; safety designs such as water and electricity separation . The battery cabinet adopts a modular design and can be flexibly expanded; it is compatible with 320Ah large battery cell design and has higher energy density, and a single cabinet can be expanded to 393kWh; safety designs such as water and electricity separation . Wide modular battery cabinet with up to a 12 string modular battery capacity. To be used with GVMMBTU battery string. Batteries are not included in the SKU and must be purchased separately. The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built in intelligence, will safely house any combination of batteries, chargers, DC distribution. SR Brackets are an open battery stacking system that is flexible, secure, and sets up in only a few minutes. The SRB2 Battery Cabinet is an outdoor-rated enclosure that can hold up to 2x SR5K-UL battery. Introduction: Constant-temperature Battery Cabinet is a good cabinet used for outdoor battery, with the wind, rain, sun, corrosion resistance and good anti-theft function, good environment adaptability, can maximum limit reduces the required power for the environment. Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready. Each climate control. The Wattainer Liquid-Cooled Series features high-performance, liquid-cooled batteries housed in modular cabinets. This advanced liquid-cooling thermal management system results in better battery stability and health, higher storage densities and voltages.
