

Namibia capacitive energy storage equipment company

Overview

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and the Southern African region. To delivery energy storage solutions with uncompromising service, quality and end of life value to achieve an optimal return on investment for the various segments of the market. Our premium, maintenance-free, 'fit and forget' battery is a TRULY sealed battery, with both plates in lead laminated. To ensure a stable and efficient supply of energy, 24/7, excess energy needs to be stored when it is available to use when it is needed. The NEC Group embarked on a restructure of its operating entities, and we are proudly introducing NEC Energy and NEC Water & Pumps as our core operating entities. This article explores how the country leverages its natural resources and strategic partnerships to build a resilient energy ecosystem while addressing challenges.
