

Off-grid bess cabinet for island use 40 feet

Overview

C&I energy storage 40Ft Cabinet BESS CX-CI004 is an all-in-one 5MWh lithium battery storage cabinet system specifically developed for demand regulation, peak shaving, industrial and commercial energy storage, etc. It integrates 5MWh LiFePO4 batteries with BMS, high-voltage box, power distribution. NEXTG POWER's Containerized Energy Storage System is a complete, self-contained battery solution for a large-scale energy storage. The batteries and converters, transformer, controls, cooling and auxiliary equipment are pre-assembled in the self-contained unit for 'plug and play' use. The NEMA3R cabinet BESS with built-in HVAC/transformer/aux power is compatible with most lithium-ion battery systems based on 90-280Ah battery cell, with the newly released PWS2-30P bi-directional storage inverters, optional 3MPPT DCDC PV charger, and optional smart transfer switch. Container sizes range from small cabinets to standard containers of 10 ft, 20 ft, 40 ft, and 40 ft High Cube. We offer preconfigured systems and custom systems. The preconfigured systems have power. BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management.
