

Poland energy storage equipment imports increase

Overview

4GWh of EU-funded battery storage projects approved last September and 16GW of pre-registered projects in 2023 capacity auctions, the country's storage sector's growing faster than spring wheat in Mazovia. But what's really driving this surge?

. The Polish Economic Institute reported that in the power market's main auction, which was held in December 2024, storage capacity of around 2.5 GW was contracted. Poland's energy transition is gaining momentum, and although it still lacks coherent and strategic policy documents to guide it, there are now tangible results: in 2024, coal's share in electricity production fell to a record low of 56. At the same time, the role of renewable energy sources. The 27th Enx Trade Fair, held on February 18-19, 2025, in Kielce, Poland, underscored the pivotal role of Battery Energy Storage Systems (BESS) in the nation's energy landscape (Targi Kielce). Policy Tailwinds & Capacity Market.

Article Content

Poland's energy storage boom is here

The energy storage sector in Poland showed significant momentum even before the launch of this new subsidy programme. Through power market auctions for 2021-2028 and ...

Poland energy transition storage boom

In Poland, there is now a huge interest in energy storage in what is sometimes called the third wave of the energy transition.

Unlocking Poland's energy storage potential | S& P Global

As Poland continues to transition from coal-fired power plants to renewable energy sources, the need for reliable energy storage solutions becomes increasingly critical.

Energy Storage Market in Poland: Key Insights from Enex 2025

The insights from Enex 2025 reinforce that BESS is no longer an emerging trend—it's a critical part of Poland's energy transition. With favorable market reforms and growing investment interest, the ...

Poland Energy Market Report | Energy Market Research in Poland

Challenges include restructuring the coal sector, diversifying gas imports, and modernising energy systems to meet EU climate goals. Get more details on the table of contents and data files, as well ...

Poland Energy Market Report | Energy Market ...

Challenges include restructuring the coal sector, diversifying gas imports, and modernising energy systems to meet EU climate goals. Get more details on the ...

Poland energy storage industry trends

The new provisions introduce comprehensive solutions for the development of energy storage facilities in Poland and are aimed at eliminating certain barriers to the expansion of this technology in Poland.

Energy sector in Poland

The energy crisis, rampant energy and gas prices, and the rising cost of carbon dioxide (CO₂) emissions have translated into an increase in inflation not seen in decades.

Energy Transition in Poland. Edition 2025

At the same time, Poland's overall dependence on energy imports has increased, rising from 29% to 45% over the past decade. The greatest long-term dependency concerns crude oil, with nearly 97% ...

Poland Energy Storage Industry Trends 2025-2030: Growth, ...

Well, Poland's kind of become the dark horse in this race. With 5.4GWh of EU-funded battery storage projects approved last September and 16GW of pre-registered projects in 2023 capacity auctions ...
