

# Price of 40kWh Microgrid Energy Storage Outdoor Cabinet

## Overview

The VSS-40W20-A Outdoor Cabinet ESS is a fully integrated energy storage system combining a high-performance LiFePO<sub>4</sub> battery (40kWh) with a 20kW hybrid inverter, MPPT solar charging, EMS, and air-cooled thermal management — all housed in a compact and weatherproof IP54 cabinet. Linyang design and manufacture high-efficiency N-type solar cells and modules, we develop, design, construct more than 8GW renewable energy projects and provide operation and maintenance service for more than 18GW renewable projects we are committed to deliver sustainable clean power to diversified. EK's outdoor photovoltaic energy storage cabinet is a high-performance energy storage solution designed for outdoor environments. Supports solar charging, EMS control, and remote monitoring. The company specializes in residential, commercial and utility applications and delivers pre-eminent products and fit-for-purpose solutions. It is a unified power supply platform system that supports various AC and DC input and output formats, meeting. Highly Integrated System: Includes power module, battery, refrigeration, fire protection, dynamic environment monitoring, and energy management in a single unit. Flexible Expansion: The system utilizes virtual synchronous machine technology for long-distance parallel communication, enabling.
