Overview

Please fill out the form below to request a quote or to request more information about us. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. Fully integrated, pre-configured, and packaged systems can help reduce footprint, onsite installation time, and cost, and increase quality and reliability. Scalable from Residential to Utility. In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy. The GSL ENERGY 215kWh 768V Outdoor Cabinet ESS is an advanced energy storage power system that integrates power modules, batteries, intelligent cooling, fire protection, dynamic environment monitoring, and smart energy management in a single outdoor-rated enclosure. It has the characteristics of high energy density, high charging and discharging power. Machan offers comprehensive solutions for the manufacture of energy storage enclosures.
