

Resort uses 10mwh pv distribution

Overview

MGM Resorts International, which operates fourteen hotels on the Las Vegas Strip, is now receiving power under a 25-year power purchase agreement (PPA) from a recently-completed 115 MW solar and 400 MWh energy storage facility in Lincoln county, Nevada, about 90 miles northeast of Las. MGM Resorts International, which operates fourteen hotels on the Las Vegas Strip, is now receiving power under a 25-year power purchase agreement (PPA) from a recently-completed 115 MW solar and 400 MWh energy storage facility in Lincoln county, Nevada, about 90 miles northeast of Las. Output from Estuary Power's recently-completed Escape Solar and Storage project more than doubles MGM's share of solar energy. The agreement will help propel the company closer to its goal of procuring 100 percent renewable electricity in North America by 2030. MGM Resorts. MGM Resorts International (MGM Resorts) made significant headway on its emissions-based goals by installing a 100-megawatt (MW) solar array, referred to as the "MGM Resorts Mega Solar Array. The array's clean energy now produces up to 90% of MGM Resorts' Las Vegas daytime.
