Dakar, Senegal, August 7, 2025 – Just one year after laying the foundation stone, Africa REN announces the commercial commissioning of Walo Storage, the first photovoltaic facility in West Africa combined with lithium-ion battery storage, designed for frequency regulation and to. in West Africa to be coupled with battery energy storage dedicated to frequenc designed for frequency regulation and to meet local energy needs in the event of grid loss. The €40 million project marks Senegal's first solar plant dedicated to frequency regulation. Authorities aim to support grid stability, renewable integration, and peak-time supply. Africa REN has commissioned a 16 MW solar plant with 10 MW/20 MWh of battery storage in northern Senegal, billed as the first grid-connected solar-plus-storage facility in West Africa.

Article Content

Press Release With the Launch of Walo Storage, a New Era ...

our energy delivery, Walo Storage marks a major technological breakthrough for the country. The installation facilitates the increasing integration of solar energy while avoiding the emission

With the Launch of Walo Storage, Energy Innovation Emerges

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Africa REN commissions Senegal's first grid stability battery storage ...

Hybrid project combines 10 MW battery storage with an existing 16 MW solar power plant. Africa REN has commissioned the 10 MW 20 MWh Walo Storage battery energy storage system in ...

Senegal Inaugurates Walo Storage: West Africa's First Grid-Forming ...

Senegal has officially inaugurated the “Walo Storage” plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

Senegal switches on inaugural solar-plus-storage facility

Independent power producer Africa REN has commissioned a solar-plus-storage project in Senegal. The Walo Storage project is the first solar installation in West Africa to include energy ...

Africa REN launches 16 MW hybrid project in Senegal

Senegal's first solar-plus-storage plant, built by Africa REN in Bokhol, combined 16 MW solar and 10 MW / 20 MWh storage for grid stability.

Senegal's Solar-Storage Leap: Financing the Niakhar Project with ...

Energy Resources Senegal (ERS), through its subsidiary Teranga Niakhar Storage (TNS), has successfully secured financing for the Niakhar Solar + Storage project, a 30 MW ...

Africa REN Powers Up Solar-Plus-Storage Plant in Senegal

Africa REN, a leading pan-African renewable energy developer, has energized the Walo Storage project in Bokhol, Senegal, a groundbreaking solar-plus-storage facility featuring 16 MW of ...

Senegal Inaugurates Solar Power Plant With Battery Storage in Saint ...

According to its promoters, Walo Storage represents Senegal's first solar plant with battery storage dedicated to frequency regulation and ranks among the first of its kind in West Africa. ...

Senegal's Solar-Storage Leap: Financing the Niakhar ...

Energy Resources Senegal (ERS), through its subsidiary Teranga Niakhar Storage (TNS), has successfully secured financing for the Niakhar Solar ...

Senegal: Official commissioning for Walo solar-storage | African Energy

The Walo solar-storage IPP – seen as a landmark development for Senegal's grid – has been officially commissioned.
