

Solar outdoor power cabinet with adjustable output voltage

Overview

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust protection (IP55/IP65), it ensures reliable operation in remote, off-grid. This solar charging system helps get you off the grid with a 400-watt solar panel that provides DC power to charge your RV's batteries. Solar controller regulates and monitors power output while. Equipped with a reliable Growatt inverter, it supports flexible battery options including rack-mount and stackable batteries. This energy storage cabinet is a PV energy storage. Sunark outdoor ESS cabinet offers IP54 protection, 215kWh capacity + 100kW output, modular design, 480-700V wide voltage, 125A peak current, integrated EMS/BMS/hybrid inverter, and grid-tied outdoor readiness. Built for outdoor use and designed to handle harsh environments, it's the ultimate plug-and-play solution for decentralized power systems in homes, businesses, and remote.
