

Solar powered devices factory in argentina

Overview

Argentina's First Solar Panel Factory Nears Completion in San Juan Argentina is on the verge of inaugurating its first solar panel manufacturing facility in San Juan province, a significant step towards enhancing the country's renewable energy capabilities. Energía Provincial Sociedad del Estado (EPSE) says production at its new vertically integrated solar factory in San Juan, Argentina, will start soon as key equipment arrives from China. Image: Servicio informativo Gobierno de San Juan From pv magazine LatAm State-owned EPSE is moving ahead with its. The plant is the first of its kind in Latin America, importing most of its materials from China (Image: Matias Avramow) Lucas Estrada is confident Argentina's first solar panel factory will start producing parts this year. This pivotal move is set to significantly reduce the country's reliance on imported panels and bolster local manufacturing. This factory represents a complete shift in how the country approaches energy independence. No more bleeding foreign currency.
