

Solomon islands customized outdoor solar power hub manufacturer

Overview

Led by local company Superfly, with support from Save the Children Solomon Islands, Mai-Ma'asina Green Belt (MMGB) and the Australian Government, through the Business Partnerships Platform (BPP), the partnership pilots a new hub-and-spoke model for rural electrification. Superfly is Solomon Islands only quality focused solar energy company. We only use lithium batteries; and we stick to quality components from manufacturers like Deye and. With extensive experience in power-dependent projects, we offer expert advice and quality products to meet the unique needs of government, commercial, industrial, and private sectors. Power Conditioning and Protection We provide a wide range of power solutions to ensure uninterrupted operations. More than 1,200 people in the remote community of Takataka, East Are'are, are now benefitting from clean, reliable solar power through an Australia-supported partnership that is bringing off-grid renewable energy to one of the Solomon Islands' most isolated regions. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems. With our expertise and commitment to excellence, we have earned a reputation as one of the best solar EPC companies in the Solomon Islands. Our corrosion-resistant panels and island-optimized mounting systems ensure maximum performance in challenging environments.
