

## Solomon islands new energy solar site

### Overview

The Solomon Islands Renewable Energy Development Project plans to finance new solar farms in Guadalcanal and Malaita provinces, along with a utility-scale grid-connected energy storage system in Honiara, the country's capital. It will also support a pilot for rooftop solar at two. The Solomon Islands is taking a significant step towards a sustainable energy future by enhancing its solar power capacity. A project is now underway. HONIARA, SOLOMON ISLANDS (12 September 2024)- The Asian Development Bank (ADB) and the Government of Solomon Islands are joining other partners to help Solomon Islands transition to renewable energy with a transformational project that will accelerate renewable energy generation and battery storage. The Asian Development Bank (ADB) has entered into landmark agreements with the governments of Solomon Islands and Tonga to advance renewable energy projects in both nations.
