

Sri Lanka Solar Outdoor Cabinet Long-Term Type

Overview

► Built for Island Conditions: Engineered to withstand coastal humidity, monsoon rains, and high temperatures, ensuring stable, long-term operation. ► Reliable, Safe & Smart: Features built-in protections and remote monitoring, giving families peace of mind while managing power. Cubik Engineering Co. (Pvt) Ltd established in 2006 as a supplier of electrical enclosures & switchboard accessories. It has now developed as a reputed company supplying electrical enclosures, cable management systems, switchgears, solar PV products, control & wiring accessories, and many other. ► Diverse Solutions: A versatile inverter range for Sri Lankan homes, delivering reliable performance from city rooftops to village households. ►. SAW Engineering is a specialized provider of solar power solutions, offering comprehensive services that include the design, installation, and maintenance of solar systems for residential, commercial, and industrial applications. Think of it as a giant power bank for the capital's grid. With the Surya Bala Sangramaya (Battle for Solar Energy) initiative and rising electricity costs, more households are turning to solar. Today, rooftop solar alone contributes nearly 1,700 MW to the.
