

Supplier of 500kw photovoltaic energy storage cabinet

Overview

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Outdoor energy storage cabinet integrates energy storage battery, modular PCS, energy management monitoring system, power distribution system, environmental control system and fire control system. Adopting modularized pcs, it is easy to maintain and expand capacity, and the outdoor cabinet adopts. The SFQ Micro Grid PV Storage Cabinet SCESS-T 500KW/1075KWH/A is a high-performance storage system that prioritizes safety and reliability. With its built-in fire protection system, uninterruptible power supply, automotive-grade batteries, intelligent thermal management, collaborative safety. This is a 500KW small-scale commercial and industrial energy storage system. It can store electricity through photovoltaic, diesel generators, and other means, with off-grid design. It can quickly switch to UPS mode during power outages. This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage.
