

The largest energy storage power station in port moresby

Overview

The 58MW Port Moresby Power Station is PNG's first dedicated grid-connected gas-fired power plant and is located in the Hiri West of Port Moresby near the PNG LNG project plant site. The construction groundbreaking ceremony happened in August 2017. In December 2017, land clearing, preparation, grading and compaction for the site office area were done. Development of the power station commenced in August 2017 and it is owned and operated by Independent Power Producer. Where is the greater port moresby pumped hydro energy storage station Where is the greater port moresby pumped hydro energy storage station What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected. WSP has played a key role in the development of the first dedicated grid connected, gas-fired 58MW power plant in Papua New Guinea (PNG) which will provide reliable and affordable power to the community. More importantly, it will help PNG reduce CO2 emissions by around 25% per annum through scaling. To eliminate the use of high-pollution diesel fuel for electrical generation, NiuPower, a partnership between Oil Search Ltd.
