

Which company makes the best high-temperature outdoor communication cabinets in Australia

Overview

In 2025, Charles Industries, DDB Unlimited, CommScope, American Products, and APX Enclosures lead the market with innovative designs and durable solutions. The Multi-Bay Outdoor Equipment Cabinets are available in 1, 2, 3, 4 or 5 bay configurations. Solar shielding, along with high-security hinges and locks all contributes to the cabinet's suitability outdoors. Norden stainless steel outdoor cabinets are designed to protect sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while keeping the equipment secure outdoors. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management. Marciano Industries Group offers innovative enclosure solutions to ensure the Engineering functions required for a particular enclosure are satisfied. Our 3D enclosure design, prototype and manufacturing capabilities allow you to meet the most challenging installations of all electronic components. The Eaton ExoCab outdoor telecommunications cabinets are a range of versatile, cost effective outdoor cabinets for a wide range of electronics applications. They can be configured for DC power, UPS, battery, or any other outdoor installation requiring robust protection for electronics equipment.
